Shared lock (V1): B's reply reveals the bit

	A's action	B's reply	end of round
b = 0	noop	**ok**	release
b = 1	acquire	**busy**	release

Private locks (V2): B's reply is the same either way

	A's action	B's reply	end of round
b = 0	noop	**ok**	release
b = 1	acquire	**ok**	release
